# *And now, a bit about Busters BBQ!*

---

Merriam Webster defines BARBEQUE as:

**bar.be.cue** : 1. (n) *To roast or broil meat on a rack or spit, over or before an open flame or fire in a pit.*

2. (n) *A social gathering at which barbecued food is eaten!*

*Most BBQ restaurants are defined by the first definition. In Kansas City & Memphis, the meat of choice is pork back or side ribs. In Texas brisket is a favorite among the locals and in the Carolinas it's pulled pork.*

*If you're in Louisiana, BBQ is a social gathering, an event. The whole hog is served along with sides of gumbo, jambalaya and crawfish.*

*Here at Busters we serve the best of all the BBQ regions. The best ribs, best pork and best brisket, all served Canadian Style, influenced by our Acadian cousins from Louisiana.*
